

STANDARD CONTROL

PRODUCT CODE:
CS-24VDC (24V)

- Function: Up, Down, EPO without key;
- Metal enclosure, black;
- Dimensions: 300x200x120;
- Mounted on a winch;
- Schrack Technik and Schneider Electric components used;
- Include: three contactors, circuit breaker, motor thermal-magnetic circuit breaker.

CS-24VDC

CONTROL FOR LOAD CELL PULLEY (EN 17206, USE CASE UC1)

PRODUCT CODE:
CS-PL

- Function: Up, Down, EPO;
- Metal enclosure, black;
- Dimensions: 200x400x120;
- Indicators: STATUS, LOAD, OVERLOAD;
- Screw terminals for power connection;
- XLR 4 connector for Load processor;
- Schrack Technik and Schneider Electric components used.

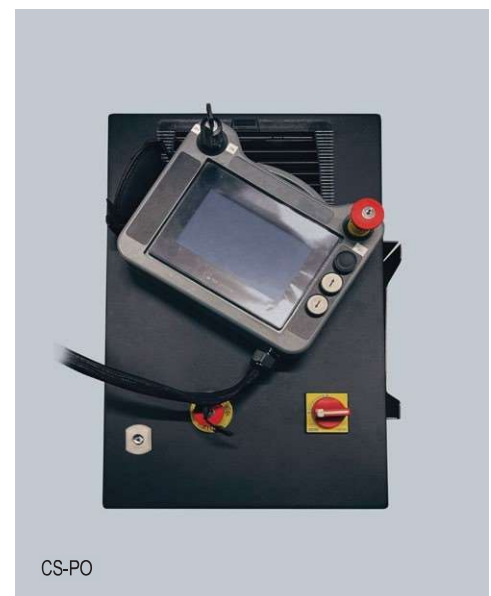

CS-PL

CONTROL WITH POSITIONING, SOFT START/STOP

PRODUCT CODE:
CS-PO

- Human machine interface - Handheld control with a Weintek touch screen;
- Control up to 4 winches (optional 8, 12, 16);
- Save multiple positions in %;
- Integrated GO button to move to set position;
- Speed control 10%, 20%.... 100%;
- Naming of axis;
- Fault numbering and dating;
- Schrack and Schneider Electric components used.

CS-PO

CONTROL WITH FREQUENCY DRIVE

PRODUCT CODE:
CS-FD-1.5

- Soft start/stop control with frequency drive Invertek ODP-2 (1.5kW)
- Function: Up, Down, EPO; Adjustable speed
- Metal enclosure, black;
- Dimensions: 400x400x210;
- Schrack Technik and Schneider Electric components used.

CS-FD-1.5

ON-WALL CONTROL FOR MULTIPLE WINCHES

PRODUCT CODE:
CS-MC-6

- Function: Up, Down, EPO:
 - single winch
 - multiple units simultaneously;
- Metal enclosure, black;
- Dimensions: 500x500x210;
- Schrack Technik and Schneider Electric components used;
- To use CS-MC-6 standard control or contactor boxes are required for each winch).

CS-MC-6

ADDITIONAL ON-WALL CONTROL

PRODUCT CODE:
CS-AC (without a key) / CS-ACK (with a key)

- Function: Up, Down, EPO
- Polycarbonate enclosure;
- Dimensions: 180x110x90
- Mounted on a wall;
- Schrack Technik and Schneider Electric components used.

CS-ACK

WIRED REMOTE CONTROL

PRODUCT CODE:
CS-RC

- Function: Up, Down, EPO;

WIRELESS REMOTE CONTROL

PRODUCT CODE:
CS-WRC

- Function: Up, Down, EPO;

CS-RC

CS-WRC
